WASHING INSTRUCTIONS

Pendle kits are manufactured from top quality materials. All fabrics undergo stringent quality tests to ensure durability and washability. They will give many years of service if properly cared for.

Always follow washing instructions on the garment label and wash all printed garments inside out.

Football Kits

First wash – Always wash shirts, shorts and socks separately to remove surface dye.

Avoid leaving kits folded or bundled together for any length of time whilst damp or soiled.

Remove excess mud by pre soaking in cool water with detergent as soon as possible after use to avoid stains from setting.

Garments may discolour due to staining by substances such as mud, grass, petroleum jelly etc.... They may not entirely be removed by washing alone. Treat stains directly with a stain remover as soon as possible. Take care not use stain remover on transfers applied to the garment as this may affect the quality of the print. Some of the toughest stains may require more than one treatment especially on light coloured garments.

Do not over load the washing machine and always wash light and dark colours separately.

Do not wash above the temperature stated on the garment label. (Many items 40°C synthetic wash.)

Do not use fabric softener as this may cause a build up of film that will prevent the detergent from penetrating the fibres to dislodge dirt.

If the garment can be tumble dried (see care label) always tumble dry Cool.

Never iron printed motifs.

Training Wear

Rainsuits, Thermals (Showerproof) and Waterproofs

Dirt on Rainsuits and Waterproofs should be wiped off with a damp cloth. These garments do not require regular washing, which will remove the water/shower proofing. If necessary wash inside out, no hotter than 30°C synthetic wash. Garments may need to be retreated after washing.

Do not use fabric softener.

Do not tumble dry.

Never iron printed motifs.

Tracksuits

Wash inside out, no hotter than 30°C synthetic wash.

If the garment can be tumble dried (see care label) always tumble dry Cool.

Do not use fabric softener.

Never iron printed motifs.
